SUMMARY

Mid-level Business Analyst with a Computer Science background who designs and ships AI-enabled process automation in fintech. Combines requirements and delivery work with hands-on integration (Spring Boot, Kafka, TIBCO), a production Camunda + ChatGPT email workflow, and Camunda / Spring Boot systems for regulatory reporting — using Devin as an AI coding/assistant tool to implement and test those systems. Oracle Agentic AI Certified Foundations Associate; completed a Master's in Software Engineering and Artificial Intelligence (SE+AI) in September 2026, including a MARL / OpenSpiel thesis (forthcoming on Riuma).

EXPERIENCE

Business Analyst — Qaracter

Málaga, Spain · July 2023 – Present

- Implements a **Camunda** and **Spring Boot** system for **regulatory reporting**.
- Uses **Devin** as an AI coding/assistant tool to **implement and test** those systems.
- Built an automatic business email processor with **Camunda** and **ChatGPT**, applying GenAI inside a process-automation workflow.
- Developed a **Spring Boot + Reactor** microservice to parse and validate messages from **Calypso**, consuming **TIBCO EMS** queues and publishing results to **Kafka**.
- Integrated the microservice with **TIBCO BWCE** applications for error handling in financial-sector flows.
- Optimized shared integration code by developing a **Java library for TIBCO BW**.
- Added new functionalities to existing fintech microservices and ran integration tests against pre-existing financial systems.
- Worked in an Agile delivery context (Atlassian Agile Project Management Professional Certificate, Jan 2025).

Game Developer — Katedral Studios

Málaga, Spain · May 2022 – November 2022

Master's degree internship

- Developed mobile game **RIMUD** and accompanying website: **C# / Unity** (game scripts, scenes, GUIs); **AWS Lambda** (Python/Node) for metrics and resource downloads; **React.js** site; **DynamoDB** (metrics) and **MySQL** (user data); iOS build via **Xcode**.

Full Stack Developer — Indra

Málaga, Spain · April 2021 – June 2021

University internship

- Improved a preexisting web application: front end (**JS, HTML**), back end (**Java, JSP**), **Oracle** database.

EDUCATION

Master's — Software Engineering and Artificial Intelligence (SE+AI)

Universidad de Málaga · October 2023 – September 2026

Thesis: *Adaptation and Integration of MARL Algorithms in a Turn-Based Multiagent Combat Environment Using OpenSpiel* — multi-agent reinforcement learning (AlphaZero, Deep CFR, NFSP, QPG) on a custom turn-based combat environment in OpenSpiel; adapter architecture for incompatible training interfaces; budget-normalized multi-seed tournament evaluation. (Academic research; not production MLOps. Forthcoming / to be published on Riuma.)

Master's — Computer Games and Programming Skills

Universidad de Málaga · October 2021 – January 2023

Project: GameQuiz Showdown (Jun 2022 – Jan 2023)

Bachelor's — Computer Science (Major in Computing)

Universidad de Málaga · October 2017 – February 2022

Optional courses included AI for Games; Critical Software Development; Video Games Programming. Eight courses in English.

CERTIFICATIONS

- Oracle **Agentic AI Certified Foundations Associate** (1Z0-1157-26) — June 2026
- Atlassian **Agile Project Management Professional Certificate** — January 2025
- Cambridge English **C2 Proficiency** (score 220) — February 2023

SKILLS

AI & automation: Camunda, ChatGPT / GenAI process automation, Devin (AI coding/assistant tool for implement & test), agentic AI foundations (Oracle cert), process analysis; academic MARL / OpenSpiel (TFM)

Backend & integration: Java, Spring Boot, Spring Reactor, Kafka, TIBCO EMS / BW / BWCE, Calypso messaging, regulatory reporting systems (Camunda + Spring Boot)

Also used: Python, PyTorch (academic TFM), C++ (OpenSpiel game engine, academic), Node.js, AWS Lambda, React, Unity/C#, Oracle DB, MySQL, DynamoDB, Git, CI/CD

Languages: Spanish — Native · English — Bilingual (C2)

SELECTED PUBLICATIONS

- *Adaptation and Integration of MARL Algorithms in a Turn-Based Multiagent Combat Environment Using OpenSpiel* — Master's thesis (TFM), Universidad de Málaga; **forthcoming / to be published on Riuma** (not yet live).
